

Parker Medical, Inc. announces relocation to 88,000 sq-ft facility in Danbury, CT

DANBURY July 2021 - Parker Medical, Inc., a leading x-ray imaging components manufacturer, announces its relocation from Bridgewater to Danbury, CT. Parker is focused on developing next generation imaging chain components and subsystems for x-ray imaging equipment.

The new facility will combine Parker's corporate offices, manufacturing, production, R&D, engineering, precision machining, plastics molding, calibration services, x-ray tube reloading and new additive manufacturing capabilities. Parker's new facility will include expanded areas for quality management, R&D, high voltage testing and components validation.

Parker serves the healthcare and aerospace industries, government and homeland security sectors, and supports scientific research with high voltage x-ray imaging components, precision machined and advanced polymer & plastics solutions.

Effective immediately, customers, suppliers, and business partners should note our change of address as follows. Please change your billing, shipping, and communications records accordingly. Our telephone and fax numbers, and website and email addresses remain the same. The Parker team will communicate direct phone numbers in future correspondence.

Parker Medical, Inc.
43 Old Ridgebury Road
Danbury, CT 06810 USA

Thank you for your continued support and business.
